10

Liter Square Pot

Ideal for substrate production

Plantlogic pots are designed to maximize drainage and oxygen uptake to support healthy roots and plant vigor.

Long Legs (3cm/1.18")

- Prevents root contact with soil.
- Prevents contact with pathogens.
- Improves drainage and root zone health.

Excellent Drainage & Root Ventilation

- Legs connected to 8 edge holes breaks drainage surface tension eliminating saturated zone.
- 24 holes in center of pot allows oxygen uptake in the center of root mass.
- Pyramid base forces water to drain at the outside edges and minimizes wet zone.
- Drainage into high air flow area for root self-pruning.

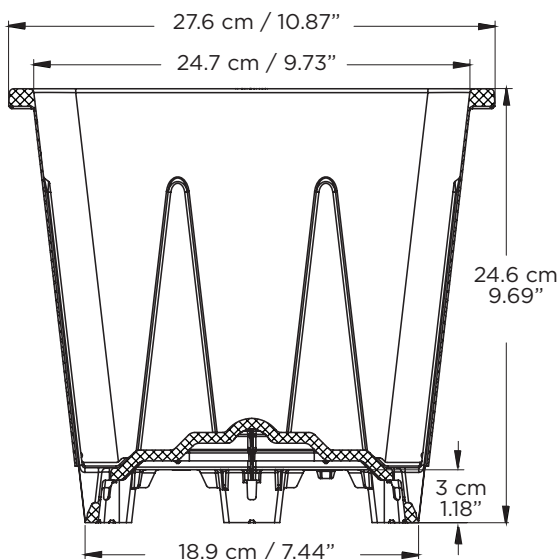

Item #1306010

2.64 Gallons

Unique Stacking Design

Allows for compact stacking minimizing shipping cost.

- 27,552* pots per 20' container.
 - 56,416* pots per 40' container.
 - 65,704* pots per 40' HQ.
- *Approximate pot quantity per container.

Plantlogic Lysimeter compatible fits our Small Lysimeter for accurate drainage collection and monitoring.
