

Liter Square Pot

Ideal for substrate production

Plantlogic pots are designed to maximize drainage and oxygen uptake to support healthy roots and plant vigor.

Long Legs (3.1cm/1.22")

- Prevents root contact with soil.
- Prevents contact with pathogens.
- Improves drainage and root zone health.

Excellent Drainage & Root Ventilation

- Legs connected to 12 edge holes breaks drainage surface tension eliminating saturated zone.
- 28 holes in center of pot allows oxygen uptake in the center of root mass.
- Pyramid base forces water to drain at the outside edges and minimizes wet zone.
- Drainage into high air flow area for root self-pruning.

Item #1309020

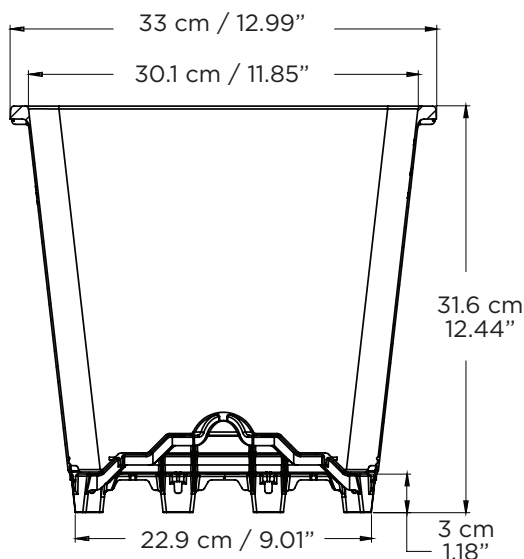

5.3 Gallons

Unique Stacking Design

Allows for compact stacking minimizing shipping cost.

- 15,750* pots per 20' container.
- 31,500* pots per 40' container.
- 37,044* pots per 40' HQ.

*Approximate pot quantity per container.

Plantlogic Lysimeter compatible fits our Large Lysimeter for accurate drainage collection and monitoring.
