## 30 Liter Round Pot V-rib

Prevents spiral root growth

Plantlogic pots are designed to maximize drainage and oxygen uptake to support healthy roots and plant vigor.

### Long Legs (3cm/1.18")

- Prevents root contact with soil.
- Prevents contact with pathogens.
- Improves drainage and root zone health.

Ribs on pot wall prevent root spiralling growth, keeping roots from choking themselves

### Excellent Drainage & Root Ventilation

- Legs connected to 8 holes allows excess of water to drain out.
- 40 holes distributed at the bottom of the pot, allow optimum oxygen uptake from the roots.
- Pyramid shape breaks water surface tension minimizing wet zone at the bottom, promoting excellent drainage.
- High airflow underneath prevents root growth outside the pot by self pruning.

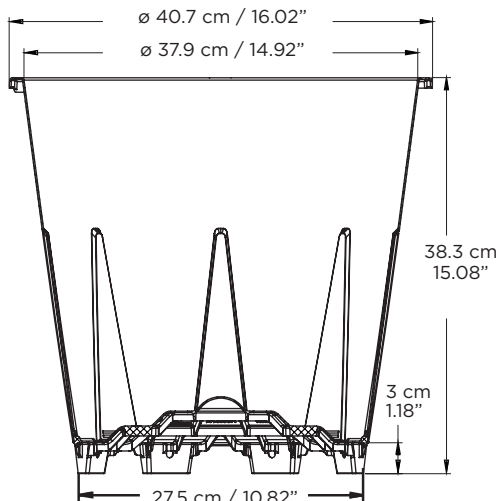

Item #1308031  
7.9 Gallons

### Unique Stacking Design

Allows for compact stacking minimizing shipping cost.

- 8,680\* pots per 20' container.
- 17,980\* pots per 40' container.
- 21,170\* pots per 40' HQ.

\*Approximate pot quantity per container.

Plantlogic Lysimeter compatible fits our Large Lysimeter for accurate drainage collection and monitoring.
