

25 Liter Round Pot

Ideal for substrate production on soft ground

Plantlogic pots are designed to maximize drainage and oxygen uptake to support healthy roots and plant vigor.

Long Legs (3cm/1.18")

- Prevents root contact with soil.
- Prevents contact with pathogens.
- Improves drainage and root zone health.

Excellent Drainage & Root Ventilation

- Legs connected to edge holes breaks drainage surface tension eliminating saturated zone.
- Wide legs help prevent sinking into soft ground.
- 48 holes in center of pot allows oxygen uptake in the center of root mass.
- Pyramid base forces water to drain at the outside edges and minimizes wet zone.
- Drainage into high air flow area for root self-pruning.

Item #1308025

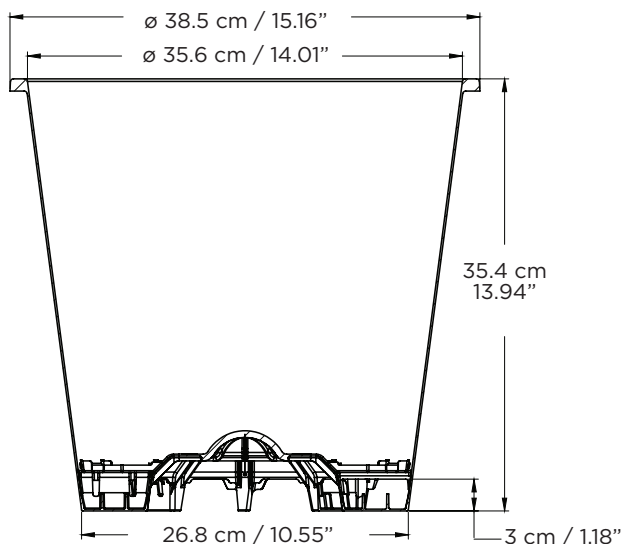

6.6 Gallons

Unique Stacking Design

Allows for compact stacking minimizing shipping cost.

- 11,430* pots per 20' container.
- 26,322* pots per 40' container.
- 28,086* pots per 40' HQ.

*Approximate pot quantity per container.

Plantlogic Lysimeter
compatible fits our Large
Lysimeter for accurate
drainage collection and
monitoring.
