

18
Liter

Strawberry trough with truss support

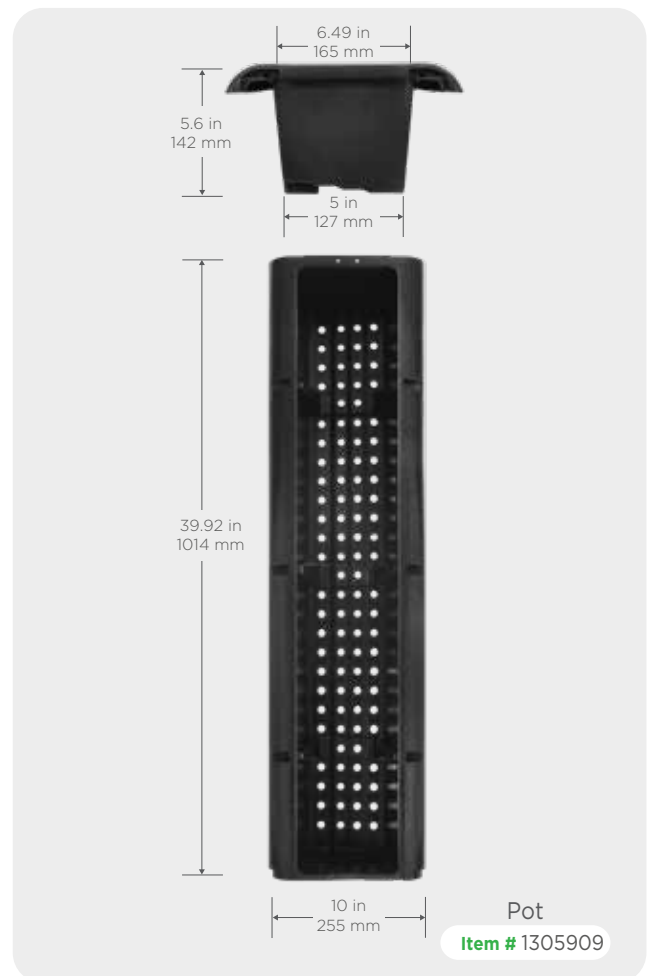

1-meter trough for tabletop production

plantlogic

innovative products
for smart growers

Dimensions

A Maximize the crop area

Overlapping handles saves space along row. Additionally, wide handles provides strawberry truss support.

Also compatible with **Plantlogic Hi-Grow System**.

B Air flow

Non-draining holes allow oxygen uptake into root mass.

C Excellent drainage

Our unique design guides drainage into specific holes, minimize perch and saturated zone.

D Drainage holes suitable for narrow gutter

Allows the collection of drainage and/or leachate into an economical gutter, separated from plant roots.

Available colors:

Black
