

VF Bag base

Low-cost base for grow bags.

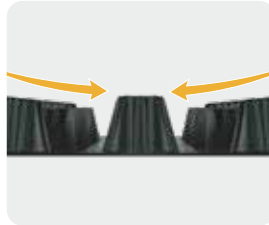

plantlogic

innovative products
for smart growers

A Structure to hold the irrigation pipe

Can fix the pipe between bag and base. Avoids damage of the pipe.

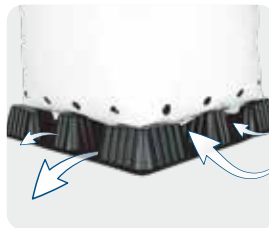

C Sloped structure design

Allows grow bags to sit stably on the base.

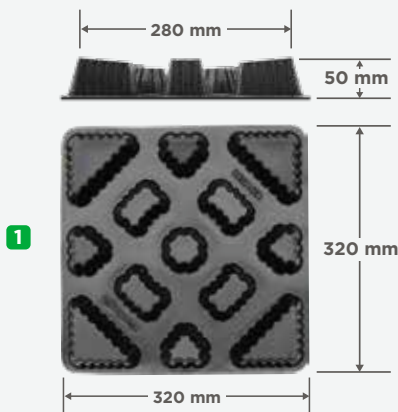

B Tall platform

Keeps roots out of the drainage and promotes efficient drainage.

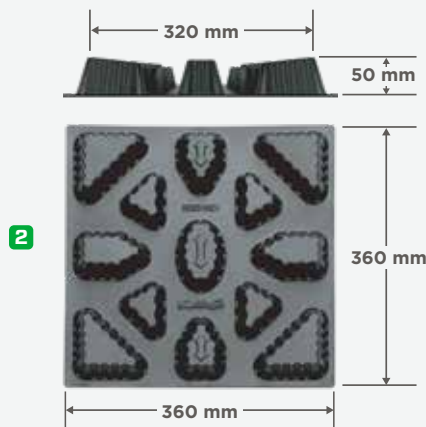

D Airflow and oxygenation

Open airflow underneath keeps roots off the ground preventing contact with pathogens.

VF Bag base - 2828

Item # 12010300

VF Bag base - 3232 - Hose fix

Item # 12010320

VF Bag base - 3333
